

Work Trial Programme for 14 to 18 year-olds

Unpaid work experience placements for young people

This programme has been designed for adventurous young people who wish to gain their first international work experience. It is specifically aimed at the younger trainee, with an intermediate level of English (minimum age 14). It is ideal for trainees still in full time education, in their gap year between school and university, or for those who simply wish to gain work experience in an international setting.

The programme helps young people with little or no previous work experience to open doors on the job market in an authentic real-life work environment, improvement of their English takes place hand in hand with that of their life skills.

This type of placements are more general and, besides the objective of providing young people with a means of improving their existing language skills in a working environment, they also aid applicants to gain valuable international work experience, which may not otherwise be readily available to them.

Programme Details	
Programme Start:	Any Monday (or as agreed between participants and Tellus)
English Level:	Intermediate and above preferred
